CONTINUOUS ASSESSMENT TEST (CAT) - II
WINTER SEMESTER 2024-2025

5.	A newly established pharmaceutical company producing medicines based on biotechnology employed Mr. Ram as its Product Development Executive, who has vast experience in pharma industry. A team of young scientists (15) in biotechnology work under him. These scientists have wonderful ideas and work with zeal in a competitive collaboration attitude. They are highly communicative to each other. They started communicating with Mr. Ram also in the same parlance. But, Mr. Ram was never used to appreciate and he used to push down his views, ideas and orders his subordinates in his earlier organization. The young scientists tried to convince Mr. Ram but failed. He used to prove that "*Boss is Right*" and "*Boss is Boss*". The scientists had a number of new ideas and these ideas could not see the light of the day. They also found that other companies successfully implemented the ideas similar to those of their ideas. These scientists started leaving the company one after the other. The Managing Director (MD) of the company found the reason for high rate of employee turnover among scientists and realized the damages caused to the company owing to Mr. Ram's failure in encouraging the upward communication. Mr. Ram was made to realize, but it had damaged the company and the employees massively by that time. Questions: (a) Analyze the type of leadership style followed by Mr. Ram? (b) Categorize the problems that you see in this case? (c) What are the strategies to be adopted to make it a better place to work?	10	4	4
